

Lan Ingram

Info: Interested in Patent Law regarding Biotechnology, specifically Marine Aquaculture. Writing/ defending an honors thesis in the EBIO department focusing on larval development of the Dwarf Lionfish under the guidance of Dr. Alexander Cruz, sp. 2015 defense. I also have a blog about marine aquaria at www.aquadeltamarine.com. I am working with a startup company here in Boulder, CO called Algae Barn that manufactures and supplies live phyto and zooplankton to fish stores nationally. I also manage a local fish store called Exotic Aquatics and we professionally build and maintain aquariums around Boulder and the greater Denver area.

Cloe Simone Pogoda

graduate student advisor in the molecular biology (MCDB) PhD program

Michael Brasino

(picture already on website)

graduate student advisor in the materials science PhD program

Tim Read

Graduate student in MCDB (advisor)
I study transcriptional Evolution in the Dowell Lab
